Straight Stairlift

The LES Straight Stairlift offers a cost effective solution to help you cope with the problems that can arise with difficult to use stairs. Designed for use with straight staircases, it has a range of features that allow your stairlift to be tailored to meet your needs.

- Rapid response footrest sensors stop the chair if an obstruction to travel is encountered
- Lockable, to prevent unauthorised or unsupervised use
- Battery back up allows for use in the event of power failure
- Swivel seat feature moves you safely away from the edge of the staircase
- Power swivel options are available
- Seatbelts are fitted as standard, providing you with additional peace of mind

- Seat arms and footrest fold neatly away
- Unit can be parked at either end of track and easily recalled with wall mounted remote control units
- Adjustable seat height allows your seat to be tailored to your needs
- Choice of Standard Luxury, Classic, SpaceSaver™ and Perch seats
- Wipe clean flame retardant cushions are available in a range of colours and can be changed to match your decor
